

# Discussion on Photon Strengths

Richard B. Firestone, Lawrence Berkeley National Laboratory

# Topics

1. What is the role of nuclear structure in photon strength?
2. Are pygmy resonances strengths statistical?
3. Are M1 transitions collective?
4. What is the M1+E2 mixing ratio?
5. Collectivity and photon strengths?
6. IAEA Consultants meeting on a database for photon strength data

*A great deal more is known than has been proved.*
